Highlights from the Chrome 89 update

### Debugging support for Trusted Type violations

Breakpoint on Trusted Type violations and link to more information in the Issues tab.

### Capture node screenshot beyond viewport

Capture node screenshot for a full node including content below the fold.

### New Trust Token tab for network requests

Display Trusted Token parameters and results of network requests.

### Lighthouse 7

New audits for PWA, accessibility, third-party embeds, and more.

### Elements panel updates

Support forcing CSS :target state, color pickers for custom CSS properties, a new context menu to duplicate elements, and more.

### Cookies updates

Option to show URL-decoded cookies, only clear visible cookies, and more.

### User-Agent Client Hints for custom devices

Edit User-Agent Client Hints for custom devices.
